

900VMB STEEL BLASTER

A VERTICAL STEEL BLASTER, WORKING WIDTH 890 MM

Similar to the Blastrac 350VH, the Blastrac 900VMB is ideally suited for medium and large-sized vertical steel blast cleaning jobs and applications. It is remote controlled for operator safety, comfort, and productivity. With its increased production width and greater productivity, the Blastrac 900VMB is ideal for medium and large-sized jobs.

The Blastrac 900VMB steel blast cleaning machine is ideally suited for medium and large sized vertical steel cleaning jobs and applications, like; oil / storage / water tank shells, ship hulls and wind mill pipes. Blastrac has designed a full range of dust collectors, consumables and optional items which give the opportunity to process any specific application.

2 X 25 KW | 400 V | 60 HZ | 125 A | THREE PHASE | 5 POLE

USER FRIENDLY

All our steel blasters have a user friendly control panel which makes it easy to operate the machine. Every steel blaster comes with extra safety features.

ELECTRIC OR HYDRAULIC

Depending on the type of project and application, you can choose a steel blaster with an electrical or hydraulic drive system. Ask us for advice!

CLOSED CIRCUIT

Every Blastrac steel blaster should be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

STEEL ABRASIVES

Depending on the material you want to remove and the result you want to achieve, you can choose different types of abrasives, all are available at Blastrac.

STRONG FABRICATION

Blastrac steel blasters are most of the time transported from job site to job site. Our steel blasters are heavy duty and strongly fabricated to create minimum downtime.

GREEN TECHNOLOGY

Our steel blasters, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
