GRINDERS *To be Victorious.*

Conquer32: Because it is more than a machine

When it comes to Detroit, it's all about the hardness of the steel, the heart behind the desire and the hard work of the labor force. It's about the **Motor City** putting the world on wheels, **Motown** putting the soul in the sound and the **Arsenal of Democracy** putting the tough behind the talk.

This is where grinder meets concrete. KutRite lives and breathes that American-made philosophy every single day, and out of it has come the company's newest creation, the Conquer 32 Active Planetary Grinder.

It features a 20 HP 480v 24.3A 1800 RPM 3 ph WEG Motor sitting on a 630-pound main head – 900 pounds of innovative quality coming down solidly on the concrete!

Tool RPM is 270-1300 RPM, rotary head RPM is 13-65 in a 32-inch footprint, both forward and reverse. The operator works to within 1/8-inch of the edge. The unique shroud design offers easy access for tensioning and replacements (three 10-inch magnetic tool plates; one 1065L15 Mirco V-belt; two #40 chains for active planetary grinding that only spins in opposite direction of tool plates).

Why buy the Conquer 32 Active Planetary Grinder? Because it is more than a machine... it's a Detroit-born and American-made system.

It has dual front and rear adjustable independent lights, a dual USB charger, cell phone holder, Blue Tooth speaker stand, adjustable quick disconnect handle (three vertical positions – working, mid-way and tool change; and two horizontal positions – straight back and off to the side). It works with nine or 18 tools (trap plates, 3-inch pucks, etc.) at one time.

It uses the standard trap and hook & loop plates, PCD and scrapper plates, offers gravity fed water system, standard vacuum port and easy access mounted power inlet/outlet.

Featuring:

- Independent Front and Rear LED Lights
- Active Planetary System
- 32" Cutting Path
- 2 USB ports for charging phones
- Mobile phone cradle
- Adjustable Quick Disconnect Handle

Part Number	5951-1000
Model	Conquer32 D Series
Power	20HP 460V 3PH
Tool Plate RPM	300-1300
Grinding Path	32"
Weight	905lbs
Water System	Controlled Gravity Feed

Kut-Rite
No matter how you kut it.
